

Our aim is to help families in our care to create final farewell services that are as unique and special as the loved one that they are remembering. Owing to our focus on delivering exceptional care, we have facilities, expertise and understanding to be able to help you to craft a service that marks your loved one's passing in the most meaningful and personal way.

Our Setting

Set in 10 acres of woodland grounds, our chapel building has been sympathetically designed to blend in with the surrounding landscape with the use of stone and natural materials.

Our beautiful memorial gardens have been landscaped with trees, lawns and flower sections blending into natural surroundings and offering a place of peace and tranquillity.

Our Facilities

Our chapel accommodates 112 people comfortably. It is open and light with windows looking out towards the mill stone water feature and offering private views of the surrounding woodland landscape for an additional layer of visual comfort, so important for a funeral service. The chapel includes two digital screens for visual tributes and a state-of-the-art music system with an almost unlimited music library.
